## SWISOXYGEN TREATMENT

Oxygen is essential to the health and maintenance of skin cells in the human body. With age, skin loses its ability to retain and utilize Oxygen for normal metabolic processes, such as repair and regeneration. The theory behind oxygenated beauty is that we all need oxygen for survival. Oxygen is what revives and replenishes the cells in our body. However, due to the pollutants in our environment today, our oxygen content has been greatly reduced. It is also true that as we age, oxygen does not reach our skin cells as efficiently, which is what leads to the aging process. SWISOXYGEN Booster facial therapy can help revive skin cells and make it easier to achieve a more youthful, energized appearance, leaving it hydrated and healthier looking.

### Benefits:

- Restore radiance and oxygen to the skin
- A relaxing ritual to unblock respiration and circulation to stimulate skin's vital energy.
